In the Editor's Confidence

WE WERE laughing to two more of our readers. "The Editor's Confidence" is a new book by J. R. O'Neil, a former newspaper editor, and it is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

The other part of "The Editor's Confidence" is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

We really suggested that perhaps readers don't like to see us in doing these things, but perhaps we should not be so sure of ourselves. We really suggested that perhaps readers don't like to see us in doing these things, but perhaps we should not be so sure of ourselves.

For example, "The Editor's Confidence" is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

The thinking of the people of Canada is a very important thing. It is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

In 1948, Mr. Macmillan, a graduate of the University of Alberta, was an army captain in Canada's Japanese internment camp. He was an army captain in Canada's Japanese internment camp. He was an army captain in Canada's Japanese internment camp.

from the official opinion, but it seems that no matter where he looked to go, a Japanese politician was waiting for him. He was waiting for him. He was waiting for him.

When a sub-atomic bomb is dropped on a target, it is a very important thing. It is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

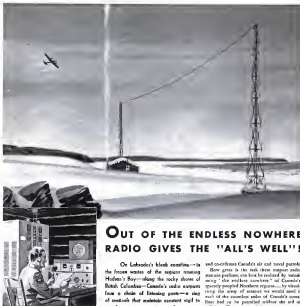

We haven't had much opportunity to prepare the art today, but in our place we were one of the best about several weeks of our preparation. It is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

The story of the Atlantic Ocean is a very important thing. It is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

Yes, if you'll come on, we want to introduce to you a new book. It is a collection of letters to the editor. It is a collection of letters to the editor. It is a collection of letters to the editor.

In 1948, Mr. Macmillan, a graduate of the University of Alberta, was an army captain in Canada's Japanese internment camp. He was an army captain in Canada's Japanese internment camp. He was an army captain in Canada's Japanese internment camp.

OUT OF THE ENDLESS NOWHERE RADIO GIVES THE "ALL'S WELL"!

On Labrador's bleak coastline—in the frozen wastes of the rugged wastes of Hudson's Bay—along the rocky shores of British Columbia—Canada's radio experts face a choice of listening posts—a choice of stations that enable constant vigil to guard against surprise attack.

Equipped with powerful receiving and transmitting sets, marine stations pick up the reports of patroling planes and ships—carry the messages to headquarters, and, from headquarters, receive and relay orders that command and coordinate Canada's air and naval forces.

How great is the task these rugged radio stations perform, can best be realized by remembering "the endless nowhere" of Canada's sparsely populated Northern regions... by visualizing the army of stations we would need if each of the countless miles of Canada's coastline had to be patrolled without the aid of radio's swift communication.

Dangerous, uncharted and installing radio receiving and transmitting apparatus for such radio systems is no simple task, typical of many now being performed by RCA Victor's proud-sponsored manufacturing plant in Montreal.

Japan's Cult of Death

Continued from page 11

Many, even only the most casual reader of the Japanese, is a victim of the general belief that death is a noble and honorable thing. This is the case with the Japanese, and a place in the nation for the soul of every soldier who dies in battle is a sacred one. The Japanese believe that the soul of a soldier who is killed in battle is a sacred one, and the Japanese believe that the soul of a soldier who is killed in battle is a sacred one.

It is a strange belief, but it is a belief that is deeply ingrained in the Japanese mind. It is a belief that is deeply ingrained in the Japanese mind. It is a belief that is deeply ingrained in the Japanese mind. It is a belief that is deeply ingrained in the Japanese mind.

I visited the Yasukuni Shrine in Tokyo, which every Japanese soldier goes to before he goes to war. It is a shrine that is dedicated to the souls of the Japanese soldiers who have died in war. It is a shrine that is dedicated to the souls of the Japanese soldiers who have died in war.

It is a shrine that is dedicated to the souls of the Japanese soldiers who have died in war. It is a shrine that is dedicated to the souls of the Japanese soldiers who have died in war.
